Living well into the future[®] at Episcopal Church Home

Tad Meyer and Ann Stevenson,
residents since 2022

 **Episcopal Church Home**
For the mind, body and spirit.

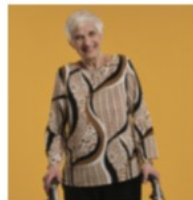

Episcopal Church Home is a community of Episcopal Retirement Services, where all faiths are welcome.

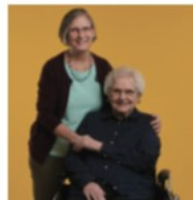

We are excited to share that the Episcopal Church Home is near completion of its bold vision to reimagine the campus for current and future residents.

Our newest Dudley Square patio homes are nearly complete. These open-floor concept, two-bedroom, two-bath homes feature modern amenities. And there's so much more than just amenities, as our residents enjoy time with interesting and fun neighbors, participate in educational, wellness, and social events at our new clubhouse, and experience delicious, restaurant-style dining at our new, Grille 75.

Our new Personal Care household, Lyndon House, also is now open. The 22 spacious apartments are available for tours for those who need some assistance throughout their day. Lyndon House provides a homey atmosphere where loved ones can enjoy the highest quality of life possible in a safe, fun, and enriching environment.

Also, Episcopal Church Home continues to offer intimate memory care and skilled-nursing households, which have had a reputation for quality care across many generations in Louisville. These households are designed to support our residents as their healthcare needs change in a familiar setting. Our team of nurses, social service coordinators, and versatile workers has extensive experience in a broad range of care needs.

Episcopal Church Home's person-centered care approach sets it apart from other retirement communities. Gone is the institutional atmosphere. In its place, our healthcare neighborhoods look and feel like home to our residents as they are encouraged to take charge of their day and make their own decisions. All residents enjoy a common living room to socialize, with a family-style kitchen where everyone can also dine together, if they wish. The familiarity and home-like atmosphere contribute to residents' feelings of acceptance, well-being, and purpose.
