BEAUTY AESTHETICS

Scalp micropigmentation, also known as SMP, is the world's leading hair loss solution for men and women!

More and more men and women worldwide are experiencing hair loss symptoms; this can be very distressing and lead to further problems with anxiety and depression. SMP is able to give you a well-needed confidence boost.

The best way to understand scalp micropigmentation is to think of it as a form of 'hair tattoo'. The pigment is deposited under the skin to create an image, just like a traditional tattoo. There are some differences, but overall they're very similar.
