What if enough people playing a game could heal that which divides us in our communities and create Peace on Earth by the end of the decade?

Wednesday, May 8th, 2024

12-1:30 pm ET

Join the Peace on Earth by 2030 global peace movement.

Come on Wednesday, May 8th from 12:00 - 1:30 pm ET to an Information Meeting to learn about the vision and how you can be involved in this dynamic and effective approach to peacebuilding. The Peace Game is played as part of a global online community over 9 weeks - between May 15th and July 10th.

While the world's conflicts are accelerating, there is a growing momentum of people leading the charge to create peace in our world - one person and one community at a time. To date over 2,000 people have taken 110,000 peace actions impacting 4 million people in 19 countries. And we've only just begun.

The seven actions of the Peace Game - **empowerment, oneness, unity, cooperation, abundance, love and faith** - are transformational practices that when collectively applied evolve a person into an emanation of peace and everything around them into manifestations of peace. They are practices which mean their impact deepens as one invests in them over time.

The Peace Game is divided into four parts that represent the different facets of creating peace in one's life and world. Action 1 on Empowerment focuses on capacity building, Actions 2 to 4 on Oneness, Unity and Cooperation focus on peace building, Actions 5 and 6 on Abundance and Love focus on field building, and Action 7 on Faith focuses on movement building.

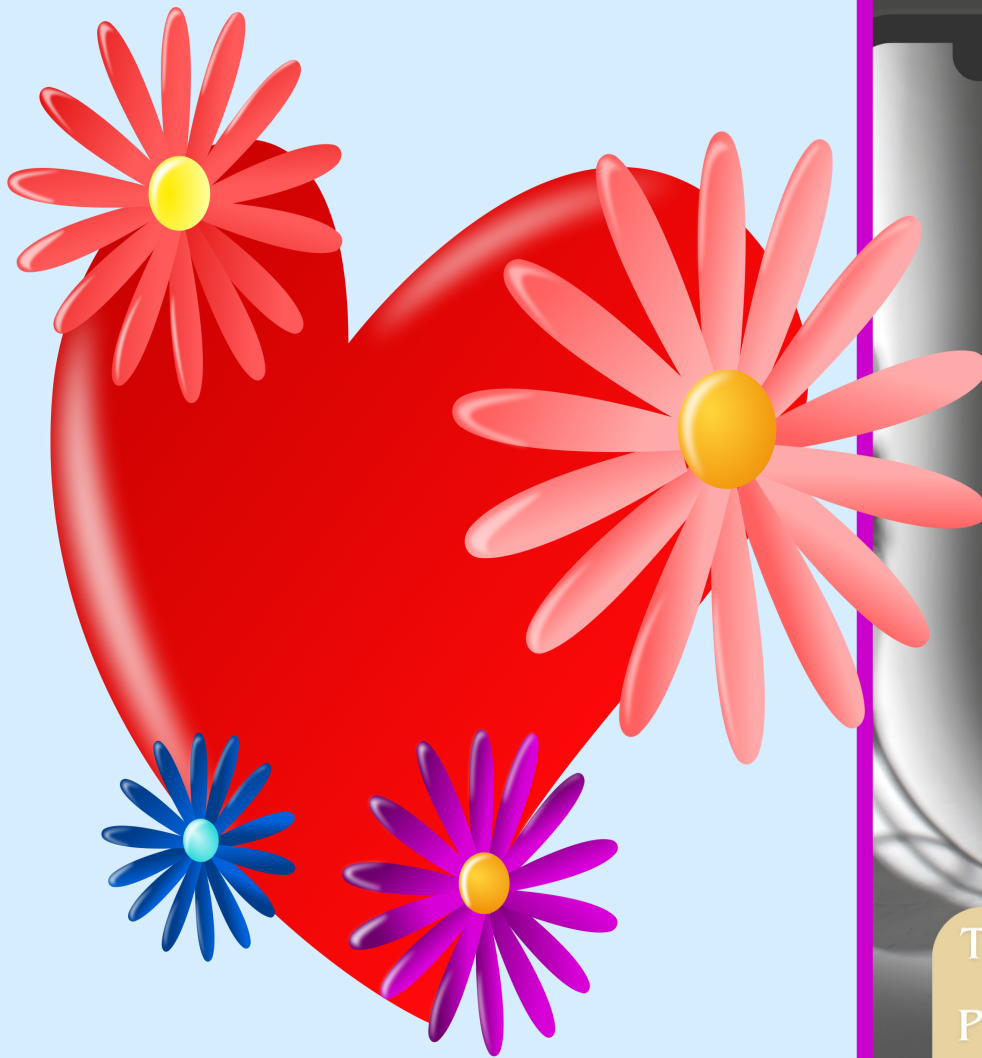

At its essence the Peace Game is an empowerment platform enabling people to envision and create a life of peace for themselves and influence those in their world to do the same. At scale it can reweave the social fabric of a community and the world.

Playing the Peace Game empowers, enlightens and transforms those players and communities who wholeheartedly engage with it. Please join us on May 8th, 12 pm to 1:30 pm ET to learn how you can contribute to Peace on Earth by 2030. We can do this!
